24. On February 24, 2015, SSVEC filed Exceptions addressing Staff's analysis of the requested revision to Section 2.4.8(A). SSVEC explained that many of its members have at least two classes of electric service at their residences and that the existing policy allows some members to avoid paying outstanding bills. SSVEC also notes that Section 2.4.8 deals with grounds for refusing to establish service, whereas Section 2.20.1 addresses grounds for disconnecting service. Finally, SSVEC asserts that, if any conflict were to exist between the revised Service Conditions and A.A.C. R14-2-203(C)(1), the Commission has the authority to grant a variance pursuant to A.A.C. R14-2-212(I).
